Gnaneswar Repalle

repallegnaneswar@gmail.com

PROFILE SUMMARY

Possess a strong background in Software Development, Web Development, Cloud Computing, and Machine Learning. Skilled in designing and implementing innovative web and AI-based applications that address real-world challenges using programming languages such as Python, Java, and C. Actively engaged in NSDC and GDSC communities, contributing to projects that enhance technical learning and collaboration. Recognized for being analytical, adaptable, and dedicated to continuous learning, with a passion for leveraging emerging technologies to create impactful and user-centric solutions.

EDUCATION

2023 – Present: B.Tech in Computer Science and Engineering, Amrita Vishwa Vidyapeetham, Bengaluru | CGPA: 8.43

2021 – 2023: Class 11th, 12th (Intermediate – BIEAP) Narayana Junior College, Vijayawada | Percentage: 96.6

2020 – 2021: Class 10th (BSEAP) Narayana (EM) High School, Avanigadda | Percentage: 99

SKILLS

- Programming Languages: Java(Intermediate), Python, C, C++
- Databases: MySQL
- Web Development: HTML, CSS, React and JavaScript
- Tools & Platforms: Jupyter Notebook, Visual Studio Code (VS Code), Eclipse, GitHub
- Libraries: scikit-learn, TensorFlow (Beginner), NumPy, Pandas
- Softskills: Team Collaboration, Technical Communication, Leadership, Adaptability, Continuous Learning

PROJECTS

Fluency Analysis of Student's Viva From Voice Signals (2025 July to November)

- Developed a scalable audio data preprocessing pipeline to transform unstructured speech into structured features.
- Implemented feature engineering, normalization, and dimensionality reduction.
- Guaranteed data quality and balance by using stratified sampling and SMOTE.

AI-Powered Emotional Support Chatbot (2024 July to November)

- Built an AI-powered chatbot in Python integrating facial emotion recognition, Google Gemini LLM, and voice interaction for real-time support.
- Implemented webcam-based emotion detection to generate empathetic responses and added mood-improving interactive features.
- Learned to combine computer vision, LLM APIs, and user interaction into a practical AI application.

InsightGrader: Intelligent Essay/Answer Evaluation with Misconception Tracking and Cognitive Load Insights – A Comparative Analysis (2025 July to December)

- Developed a multi-task learning model for automated essay scoring and error detection
- Predicted writing quality and identified token-level errors using BIO tagging
- Implemented transformer models like BERT and RoBERTa
- Improved performance using Optuna

CERTIFICATIONS AND ACHIEVEMENTS

2024 – 2025 | Executive, National Student Data Corps (NSDC), Amrita School of Engineering Bengaluru (ASEB)

- Managed club operations and events promoting data science learning.
- Supported community initiatives and student engagement in data-driven projects.

2023 – 2024 | Club Member, Google Development Student Club (GDSC), Amrita School of Engineering Bengaluru (ASEB)

- Collaborated on projects in cloud computing and generative AI.
- Enhanced technical and teamwork skills through hands-on learning.
- Completed a Cloud Computing course and earned certification from GDSC ASEB.
- Completed “Introduction to JIRA” and “Agile Scrum Master” Courses from Simplilearn.
- Added a workshop titled “Introduction to Cloud Native Software” conducted by IBM SkillsBuild
- Completed Beginner and Intermediate Machine Learning courses and received certification from NSDC ASEB.
- Presented an IEEE conference paper titled “Solar Power Forecasting System” at ICSRF 2025, held at Amritapuri
